1. RESPONSE TO DEPARTMENT'S SUGGESTION BOX AND REVISION TO PROCEDURE 12.600, PRISONERS: SECURING, HANDLING, AND TRANSPORTING.

Attached to these Staff Notes is the Planning Section response to an item recently submitted through the Department's Suggestion Box regarding the establishment of a policy regarding transporting overdose patients.

Procedure 12.600, Prisoners: Securing, Handling, and Transporting has been revised. The policy now addresses handling disagreements with Fire Personnel regarding transportation decisions.

Planning Section also received a Form 17 regarding a refused prisoner at the Hamilton County Justice Center (HCJC). Planning Section met with staff from the HCJC to determine policies regarding refused prisoners. This revision to Procedure 12.600 authorizes personnel to transport prisoners to hospitals other than University or Children's, when requested by detention facility staff to facilitate intake of prisoners.

This revision is effective immediately. Personnel should review Procedure 12.600 in its entirety. The revised procedure is available on the Intranet and on the Department web page.

2. ANNUAL STATISTICS OF OFFICERS KILLED IN THE LINE OF DUTY

The National Law Enforcement Officers Memorial Fund released a preliminary 2011 year end data report that indicates 173 law enforcement officers were killed in the line of duty. This is a 13 percent increase over the 153 line of duty deaths in 2010, and a startling 42 percent increase over the 122 officers killed in 2009. Tragically, 68 officers were shot and killed in 2011. This contributes to an upward trend of needless deaths that have occurred in recent years. For the first time in 14 years, officers killed in firearms related incidents exceeded the 64 officers who died in traffic related incidents. Continued legislative efforts to remove illegal firearms from city streets, and successful education for officers on the importance of wearing body armor, have saved 70 officers lives in 2011. To date, a recorded 3,142 officers' lives have been saved because they were wearing body armor.

3. REQUESTING DONATED TIME FOR GEORGE PILLE

Sergeant George Pille, Planning Section, has exhausted his leave time balances due to health issues.

Any Department member wishing to voluntarily donate time to Sergeant Pille should submit a Form 25S to their district/section/unit commander, listing George Pille's name, district/section/unit, the type of time and number of hours being donated. Sick time may **not** be donated. The donor's rank and signature must appear on the Form 25S.

5. DRUG TRAINING OFFERED AT THE POLICE ACADEMY

Training Section will host a two-hour training course, instructed by Dr. Jan Scaglione of the Cincinnati Drug and Poison Control Center, titled "*Not for Human Consumption*": *Drugs of Emerging Concern*. The course will be held at the Police Academy on Friday, February 17, 2012, from 0800 to 1000 hours.

This course is a presentation covering the newer synthetic drugs, primarily cannabinoids and cathinones, marketed and more commonly referred to as "K2/Spice" and "Bath Salts". The purpose is to provide a more in-depth understanding of what is known about these chemicals and their effects. The course would be beneficial to officers and provide them with basic information and skills required to conduct investigations involving illegal substances. There are no pre-requisites required to attend this course.

Objectives for combined discussion of synthetic cannabinoids/cathines:

- Identify active ingredients in synthetic compounds used like marijuana and stimulants
- Examine side effects of use of recently identified synthetic drugs by case example
- Discuss legal issues surrounding the use of selected synthetic compounds
- Evaluate toxic effects of misuse and abuse of the synthetic drugs of abuse

There will be no overtime provided to attend the training. Officers may attend on-duty with the approval of their supervisor. Personnel interested in attending the training must submit a Form 17 through the chain of command to their bureau commander, no later than Friday, January 27, 2012. Training Section will complete the registration and notify personnel approved to attend. Questions regarding this training should be directed to Sergeant Ron Hale, Training Section, at 513-357-7555.

6. PROPER USE OF THE PRIMARY RADIO CHANNEL

Officers are reminded to use the primary radio channel, Channel A," to communicate with Emergency Communications Center (ECC) dispatchers unless otherwise directed. Vehicle and citizen stops, unusual situations requiring backup, etc, must be communicated on the primary channel in order to ensure the dispatcher receives all information. ECC dispatchers use headsets that allow only one channel to be heard at a time. The primary channel takes priority over other channels in cases of simultaneous transmissions. It is possible for an officer transmitting on "Channel A" to override information being transmitted by an officer on "Channel B." This presents a risk to officer safety, as location and other critical information may not be communicated.

7. ANNUAL CALENDAR OF AWARDS PROGRAMS

The Cincinnati Police Department participates in numerous awards and recognition programs throughout each year. The programs provide opportunities to demonstrate the Department's professionalism and excellence in serving its community. They afford a means to bring positive attention to deserving individuals who serve as members of the Cincinnati Police Department. Many of these programs recur annually.

[Attached](#) to these Staff Notes is a list of recurring awards programs which provides an overview of various opportunities to bring recognition to the performance of individuals and groups within the Department.

8. COMPSTAT INFORMATION

[Attached](#) to these Staff Notes is the most current COMPSTAT Information. Department personnel are directed to review this information to ensure they remain familiar with crime patterns and trends occurring within the City and their areas of responsibility.

9. MESSAGE FROM THE POLICE CHIEF ENCOURAGING DEPARTMENT EMPLOYEES TO PARTICIPATE IN AN ON-LINE SURVEY

To All Department Employees,

I have asked that the survey conducted some years ago as a part of the 2005 Linder study of the Department be issued to provide a current baseline on how we feel about our job and issues in the Department. This will provide a solid baseline from which we can measure progress as we move forward over the coming years.

The results of the survey will only be provided to our audit consultants who will collate the results and provide them to me. I will then provide those results to members of the Department.

We are using an on-line application to administer the survey, which will make it easier to access and complete. I want to encourage all employees to take the survey, as it is an important opportunity to make your opinions known and will be helpful to guide me as I work to address issues of concern to all of you. Please take the survey as soon as possible.

Many thanks for your participation. We are a great organization that provides a critical service to the citizens of Cincinnati; and this survey will be used to make us even better. Please follow the instructions below to access and complete the survey.

Each officer is requested to logon to the website below, either through their MDC or a Department computer. The website will contain a survey which must be completed by midnight, January 17th, 2012. Take the survey **only once**.

** Survey designed by the Linder Group and use approved by the Cincinnati Business Committee that funded that development.*

10 POLICE CHIEF'S COMMENDATIONS FOR THE WEEK

**LIEUTENANT STUART KOEPPE
SERGEANT JEFFREY SCHOLL
POLICE OFFICER KEVIN BUTLER
POLICE OFFICER JASON RICE
POLICE OFFICER TED ROBINSON
POLICE OFFICER DENNIS VAN KESTEREN
POLICE OFFICER WILLIAM WOLNER
District Two**

I wish to extend my personal thanks and commendation to you all for the following:

On December 15, 2011, District Two Violent Crimes Squad Officers conducted a search warrant at 1874 Fairfax Avenue apartment #2. During the search, officers located 603.53 grams of powder cocaine, 185.04 grams of crack cocaine, 421.75 grams of marijuana, \$14,489.00, a .45 caliber Glock pistol, a Mossberg pump-action shotgun, and a Taurus 38 special revolver. The search warrant also led to three individuals being arrested and charged with Drug Trafficking, a felony of the first degree, and Drug Possession, a felony of the first degree. One of the three individuals was also charged with Weapons under Disability for the three recovered firearms. The lessee was arrested for Permitting Drug Abuse. The apartment where the investigation occurred had been the target of several complaints and is located across the street from the Evanston Academy School. The efforts of these officers have eliminated a location where drug dealers were bringing unwanted criminal activity to the residents on Fairfax Avenue and the Evanston Community.

The above named officers are deserving of this commendation for their dedication to duty, professionalism, and investigative techniques. Through their significant efforts, relief has been brought to the residents of Evanston.

 Ohio Revised Code 2933.32, Body Cavity and Strip Searches; Conducting Unauthorized Search; Failure to Prepare Proper Report
 Ohio Revised Code 2933.81, Electronic Recording During Custodial Interrogation.

Definitions:

Body Cavity Search - an inspection of the anal or vaginal cavity of a person that is conducted visually, manually, by means of any instrument, apparatus, or object, or in any manner while the person is detained or arrested for a criminal or traffic offense.

Custodial Interrogation - any interrogation involving a law enforcement officer's questioning that is reasonably likely to elicit incriminating responses and in which a reasonable person in the subject's position would consider self to be in custody, beginning when a person should have been advised of the person's right to counsel and right to remain silent and of the fact that anything the person says could be used against the person, as specified by the United States supreme court in *Miranda v. Arizona* (1966), 384 U.S. 436, and subsequent decisions, and ending when the questioning has completely finished.

Electronic Recording or Electronically Recorded – an audio **and** visual recording that is an authentic, accurate, unaltered record of a custodial interrogation.

Place of Detention – a jail, police or sheriff's station, holding cell, state correctional institution, local correctional facility, or department of youth services facility. A "place of detention" does not include law enforcement vehicles.

Strip Search - an inspection of the genitalia, buttocks, breasts, or undergarments of a person that is preceded by the removal or rearrangement of some or all of the person's clothing directly covering the person's genitalia, buttocks, breasts, or undergarments and that is conducted visually, manually, by means of any instrument, apparatus, or object, or in any manner while the person is detained or arrested for a criminal or traffic offense.

Policy:

Arresting officers who suspect a prisoner of putting in their mouth, swallowing, or attempting to swallow any substance or item suspected as capable of causing physical harm, injury, or death will immediately request a supervisor and the Cincinnati Fire Department respond to the scene.

Arresting officers must maintain control of prisoners until relieved by a supervisor, Hamilton County Sheriff's Office employee, or other law enforcement agency.

Immediately notify a supervisor when prisoners have visible or claimed injuries, or when any Hamilton County detention facility refuses admission.

Investigating supervisors will ensure all officers who witnessed a use of force or injury to prisoner provide a statement regarding the incident. Refer to Procedure 12.545, Use of Force, to determine if the statement is required to be tape recorded. The investigating supervisor will ensure all use of force and injury to prisoner reports identify all officers who were involved in the incident or on the scene when it occurred. The investigating supervisor will ensure all use of force and injury to prisoner reports indicate whether medical care was provided, and whether the subject refused medical treatment.

Arresting officers are responsible for minor and adult dependents of physically arrested persons. Physically or mentally impaired adults are examples of adult dependents. Arrested persons can advise with whom they want their dependents placed. Record the location of minor or adult dependents in the district/unit blotter.

Call the Hamilton County Department of Job and Family Services when unable to place dependents with responsible adults.

For minors, call 241-KIDS.

For dependents 60 and over, call 421-LIFE.

The transporting officer has a duty of care to protect the prisoner from injury. Officers transporting prisoners will not become involved in any other activity unless there is a clear and grave risk to a third party and the risk to the prisoner is minimal. Officers should always be aware of intentional diversions that may be used to free a prisoner.

When transporting prisoners to another agency, the transporting officer will notify that agency when the prisoner is considered an unusual security risk. The transporting officer may request the receiving agency provide additional restraints or officers.

Prisoners are only allowed to communicate with a physician, attorney, or immediate family member with approval of arresting officer.

Information:

The following factors place an individual at a higher risk for positional asphyxia:

- Cocaine induced delirium – a side effect suffered by some cocaine users characterized by disorientation, hallucinations, and an increased heart rate.
- Other drug/alcohol use – intoxication may reduce respiratory function.
- Physical build – obesity can increase an individual's risk.
- Environment – extreme temperatures increase risk.
- Underlying health problems – asthma, emphysema, and heart disease.
- Involvement in a struggle lasting longer than three minutes.
- Pressure applied to back during arrest.
- Suspect position – suspects on their stomach, particularly on a hard surface, are at increased risk.

Procedure:

A. Handcuffing

1. When possible, handcuff all prisoners with their hands behind their back. Apply handcuffs between the hand and protruding wrist bone with the prisoner's palms facing out and the keyholes facing up.
 - a. Apply handcuffs directly over the skin. Never apply them over clothing or jewelry. They should be reasonably snug and double locked.
2. Do not leave handcuffed individuals prone on the ground. Once individuals are under control immediately move them to a seated position as soon as possible.

3. When necessary, handcuff physically handicapped, injured, or pregnant prisoners in front.
 - a. Two officers will transport a prisoner handcuffed in front of the body.
4. When handcuffing two prisoners together, use the right wrist to right wrist or left wrist to left wrist method.
 - a. Do not handcuff male prisoners to female prisoners or adults to juveniles except in emergency arrest situations.
5. Remove handcuffed persons from public view as soon as possible.
6. For officer safety, it may be necessary to temporarily handcuff citable persons or persons under investigation.
7. On a case by case basis, officers are permitted to temporarily remove handcuffs from arrested persons for various reasons:
 - a. Seriously injured and requiring medical treatment.
 - b. Interviewing and processing (fingerprints/OVI arrests).
 - 1) Prisoners will be thoroughly searched prior to removing handcuffs.
 - 2) Two officers will remain with unhandcuffed prisoner(s).
8. When transferring a prisoner from one set of handcuffs to another, keep the original handcuffs on the prisoner. Place the second set of handcuffs on the prisoner underneath the first pair, ensuring handcuff keyholes are accessible.
9. Flexcuffs are permitted only in the following situations:
 - a. SWAT operations.
 - b. Mass arrests at demonstrations or civil disturbances.
 - c. Under exigent circumstances with supervisory approval.

B. Prisoner Searches

1. Thoroughly search all handcuffed prisoners from the rear.

2. Transporting officer(s) will conduct a separate and additional search of prisoners coming into their custody.
3. Whenever possible, use female officers to search female prisoners and male officers to search male prisoners.
 - a. If necessary, handcuff opposite sex prisoners and watch them until an officer of the same sex arrives to complete a detailed search.
 - b. When opposite sex searches must occur, limit the search to finding weapons.
 - 1) Use the blade edge of the hand.
 - 2) Retrieve weapons immediately from any body area when there is immediate danger.
4. Strip searches and body cavity searches:
 - a. Perform a strip or body cavity search only when there is probable cause to believe the prisoner is concealing evidence, contraband, or weapons.
 - b. A supervisor must approve and sign a Form 602, Search Authorization, before:
 - 1) A police officer conducts a strip search.
 - 2) A search warrant for a body cavity search is sought.
 - c. Only officers of the same sex will conduct strip searches.
 - d. Only one officer will conduct a strip search.
 - 1) Have an officer just outside the view of the search in case the searching officer needs help.
 - 2) The officer conducting the search will not, under any circumstances, insert their finger or any other instrument into a prisoner's orifice during the strip search.

- 3) If, while conducting a strip search, the officer visually observes what is believed to be contraband partially protruding from the prisoner's orifice (vagina or anal cavity), the officer will request the prisoner to remove the object.
 - 4) If the prisoner refuses to remove the object, the officer will not attempt to remove it. A body cavity search warrant will be required to recover the contraband.
 - 5) The officer who observed the contraband in a prisoner's orifice should immediately end the strip search and follow the guidelines for obtaining a body cavity search warrant.
- e. After getting a search warrant for a body cavity search, respond to University Hospital to conduct the actual search.
- 1) University Hospital's policy is to perform a body cavity search or stomach pumping only for medical reasons with the patient's consent. The hospital will give the recovered evidence to the police.
 - 2) A doctor, registered nurse, or practical nurse licensed by the State of Ohio must perform the body cavity search. No one is permitted to witness the search.
 - 3) If the prisoner refuses to allow a medical professional to conduct the body cavity search in accordance with the search warrant, the officer will:
 - a) Notify a supervisor.
 - b) List the medical professional on the Form 527, Arrest and Investigation, as a witness to the presence of the contraband if they saw it.
 - 4) A person suspected of having contraband in an orifice will not be accepted at a detention facility. A supervisor will contact the Duty Officer or Night Chief for further instructions.
 - 5) If the prisoner consents and the medical professional refuses to conduct the body cavity search, a supervisor will notify the Duty Officer or Night Chief for further instructions.

- f. After transporting prisoners to the Hamilton County Justice Center (HCJC), officers will advise the Hamilton County Sheriff's deputies when they believe a prisoner is concealing contraband.
 - 1) Hamilton County Sheriff's deputies maintain a list of offenses for which they routinely conduct strip searches.
 - 2) Department personnel must have an approved Form 602 prior to requesting sheriff's deputies to conduct a strip search.
- g. Officers transporting prisoners to the Hamilton County Juvenile Court Youth Center (HCJCYC) will not attempt to conduct a strip search within that facility.
 - 1) After transporting prisoners to HCJCYC, officers will advise the detention facility employee when they suspect a prisoner is concealing contraband in an orifice or other areas of the genitalia.
 - 2) The detention facility employee will notify the Supervisor on Duty (SOD), who will respond and make the final decision whether to conduct a strip search of the prisoner.
 - a) The officer must be able to adequately articulate probable cause to justify a strip search.
 - 3) If the SOD refuses to authorize a requested strip search, the requesting officer will advise a supervisor, who will evaluate the circumstances and complete a Form 17 Incident Report if the refusal is believed to be unwarranted.
 - a) The SOD is required to complete an Incident Report to the HCJCYC facility superintendent whenever they refuse to conduct a requested strip search.
- h. After strip or body cavity searches, the officer who conducted the strip search or authorized the body cavity search must give the person searched a completed copy of the Form 602.
- i. Immediately forward the original Form 602 to the Police Chief.
 - 1) Inspections Section files the original.
 - 2) The originating unit files a copy.

5. Persons in custody suspected of putting in their mouth, swallowing, or attempting to swallow any substance or item suspected as capable of causing physical harm, injury, or death, i.e., drugs, poison, etc.

 - 1) Immediately transport any subject 13 years of age and older, suspected of putting in their mouth, swallowing, or attempting to swallow any substance or item suspected as capable of causing physical harm, injury, or death to University Hospital.
 - a) University Hospital's policy is to perform a body cavity search or stomach pumping only for medical reasons with the patient's consent. The hospital will give the recovered evidence to the police.
 - b) If unable to gain consent, a supervisor will determine the proper course of action.
 - 2) Immediately transport any subject 12 years of age and under, suspected of putting in their mouth, swallowing, or attempting to swallow any substance or item suspected as capable of causing physical harm, injury, or death to Children's Hospital.
 - a) Children's Hospital's policy is to perform stomach pumping only for medical reasons with or without parental consent. The hospital will give the recovered evidence to the police.
 - b. The responding supervisor will conduct a thorough investigation of the incident and complete a Form 18I, Injury to Prisoner, for the ingestion.

Subject: Suggestion Box Response – Transporting Overdose Patients

The Police Department received an anonymous suggestion requesting the Police Department to work with the Fire Department to establish an official policy regarding situations related to transporting overdose patients. The suggestion read as follows:

"I think we need an official stance with the fire department for overdose MHRTV runs. Fire personnel often suggest to police that a patient who claims to have taken pills to harm themselves are ok for police to transport. Many times, officers like me, will transport the subject taking fire's word, however, hospital staff has stated on a few occasions that we should never transport an overdose patient because their stability is unpredictable. They said drugs like ambien which is often used to overdose is very unpredictable and at times does not kick in for a while and the patient will crash. Obviously in the back of a police car is not a good place for a medical emergency. We need an agreement with fire that all suspected overdoses be transported by fire with no attempt on their part to convince police that the patient is stable."

Planning Section contacted the Fire Department regarding this issue. The Fire Department confirmed their members are told to transport patients in any situation where there is doubt regarding the stability of a patient. Fire Department management will remind fire personnel of the policy to transport under these circumstances.

Police personnel must understand Fire Department personnel are trained to assess patients and evaluate whether fire assets should be used to transport. When police personnel disagree with fire personnel, they should remind fire personnel of their obligation to transport patients whose medical condition may be unstable, such as in overdose situations. However, to minimize the danger to patients, police personnel should not engage in conflict with the Fire Department and should transport to the nearest hospital. After the transport, personnel should report the refusal to transport to their supervisors who should, in turn, notify Planning Section, who will inform Fire Department officials regarding a possible violation of Fire Department procedures.

Planning Section updated procedure 12.600, Securing, Handling, and Transporting Individuals in Police Vehicles, has been updated to reflect this process. Please direct any questions to Sergeant Bill Suter, Planning Section, at William.Suter@cincinnati-oh.gov or 352-1239.
